

Do you identify functional dependencies between the three Variables V:

(V1) Corruption Perception Index **CPI** / Conniving / Bribes

(V2) **Quality** (Workmanship/Durability) and

(V3) **Rule of Law** i.e. not obeying procedural rules of Construction FiDiC Law or other forms, forging documents for “unexplainable wealth” methods for measurement and payments, pro forma Notice of Determinations, and other ethical misconduct in Design, Design Modifications and Variations to increase the Contract Price, avoiding Dispute Board referrals, ...

Which experiences are known to you as a member of the Cartel of Silence?

Ordinate: **Quality of Work**
Low (forged components)– Medium – High Quality / Duration

Ordinate: **Rule of Law**
Low – Medium – High compliance with Law

Abscissa **CPI-Ranks**
Low (New Zealand) – medium – high RANK (Russia)

Abscissa **CPI-Ranks**
Low (New Zealand) – medium – high RANK (Russia)

Corruption CPI 2021 – published by TRANSPARENCY International Germany.

Scores / Rank = Corruption Perception Index CPI 2021
